Summary

Innovative Developer & Designer with over 6 years of experience in UX/UI and frontend development. Proficient in Angular (9-14), Cypress, and agile methodologies, delivering high-quality projects through effective collaboration and design principles. Achievements include the successful implementation of a corporate design system and a high-fidelity prototype for a melanoma diagnosis app. Ready to leverage unique skills in creating user-centric designs and optimising development processes to drive advancements in the field.

Work Experience

Frontend Developer Analyst with UX/UI, Romeu IT, Valencia

10/2020 – 03/2024

- As a Frontend Developer Analyst, orchestrated the frontend development in one of the company's three projects, contributing to refinements, task estimation, and development using Angular (versions 9-14), as well as defining and negotiating DTOs and Requests, architecture, and layout design, alongside E2E testing with Cypress.
- Utilised agile methodologies (SCRUM), implementing SOLID principles to enhance code quality and maintainability.
- Simultaneously maintained a cross-functional role across all three teams as a UX Analyst and UI Designer, collaborating with product owners to translate user stories into wireframes, defining information architecture, and prototyping as necessary.
- Successfully completed three iterations for the creation and expansion of the corporate software design system, ensuring cohesive user experiences across applications.

FRONTEND DEVELOPER, Elora Design, Murcia

09/2019 – 12/2019

- Contributed to two significant projects: in Imoles, a melanoma diagnosis application, developed engaging designs and informative infographics, and conducted a thorough UX analysis, culminating in the creation of a high-fidelity prototype.
- In a secondary initiative, operated as a developer employing Angular and Ionic to create a quality and service evaluation app for a hospitality chain, enhancing customer feedback processes.

GRAPHIC DESIGNER AND PRINT MANAGER, Prodesign Design and Signage, Murcia

07/2015 – 06/2019

- Led design, digital printing, and signage initiatives at a busy design company, taking full responsibility for graphic design and production, overseeing both external print orders and proprietary mural and plotter printing projects.
- Managed client interactions, gathered project briefs, sketched initial concepts, designed projects, formulated manufacturing and assembly instructions, and supervised graphic production as well as the workshop team.
- Delivered a diverse range of products including client stationery, catalogues, posters, banners, signage, mural prints, and branding materials.

COMMUNICATION AND ART DIRECTION MANAGER, Tablao de Levante, Murcia

03/2014 – 03/2015

- Oversaw an entrepreneurship project as manager and art director of a flamenco show tailored for cruise passengers, optimising the overall performance experience.
- Coordinated the artistic team, managed video production, executed website design, and directed communication strategies to enhance audience engagement.

WEB DESIGNER, Dislomar S.L., Murcia

04/2013 – 07/2013

- Executed the corporate website development project for client services, involving the design of templates, content creation, and Joomla CMS configuration.
- Facilitated client login access to the portal, while providing relevant product information and order status updates.

EXHIBITION PROJECT AND AUDIOVISUAL PRODUCTION, Obra social CAM, Valencia

04/2007 – 09/2007

- Engineered and produced the exhibition project 'In the Shadow of the Myth: Life and Work of Bruce Wallas,' encompassing exhibition design, setup, and the production of a 12-minute documentary derived from the Bruce Wallas Foundation's historical archive.

GRAPHIC DESIGNER, Comunicación e ideas creativas, Madrid

02/2002 – 10/2002

- Executed graphic design responsibilities, focusing on creative functions, layout, and prepress processes, encompassing marketing, packaging, editorial design, and branding for various companies.

GRAPHIC DESIGNER, Fundación Casa de la Moneda, Madrid

02/2001 – 09/2001

- Spearheaded the design and production of the exhibition project 'The Art of Technique,' which included signage, catalog design, promotional materials, and audiovisual installations.

GRAPHIC DESIGNER, Atyf Services for Companies, Madrid

02/2000 – 12/2000

- Developed corporate identity designs, project presentation layouts, and website designs to elevate brand visibility and coherence.
